

ROOPA MOLAKA

 RoopaMolaka |  Portfolio | roopamolaka@gmail.com | +91 9346724006

Profile Summary

Frontend Developer with 1+ years of experience in developing and maintaining responsive web applications using React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS, and Ant Design. Skilled in building reusable and responsive UI components, integrating RESTful APIs, and managing application state using Redux Toolkit and Context API. Experienced in implementing responsive designs, optimizing application performance through lazy loading and code optimization, and ensuring cross-browser compatibility. Familiar with Git/GitHub, Webpack, Agile/Scrum methodologies, and collaborative development practices. Contributed throughout the software development lifecycle, including requirement analysis, development, testing, debugging, deployment, and maintenance. Focused on delivering clean, scalable, user-friendly interfaces while maintaining code quality and meeting business requirements.

Technical Skills

- **Languages:** JavaScript (ES6+), HTML5, CSS3
- **Libraries & Frameworks:** React.js, Redux Toolkit, Context API, Ant Design, Bootstrap, TailwindCSS
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB
- **Tools & Platforms:** Git/GitHub, Webpack, RESTful API integration
- **Others :** JWT Authentication, Responsive Design, Agile/Scrum

Work Experience

Frontend Developer | ND Media, Hyderabad

May 2024– Aug 2025

Project Name : ndhealth.shop

- Developed and maintained **10+ responsive e-commerce pages** for product listing, product details, cart, checkout, and user account management using **React.js, JavaScript, Tailwind CSS and Bootstrap**.
- Integrated **15+ RESTful APIs** for product catalog, cart, checkout, and order management, improving data accuracy and reducing manual updates by **40%**.
- Integrated **Razorpay payment gateway** and third-party services, enabling seamless online payments for **1,000+ active users per month**.
- Developed **20+ reusable UI components**, improving maintainability and reducing new feature delivery time by **20%**.
- Designed and validated **4+ interactive forms with advanced error handling**, reducing failed submissions.
- Ensured **cross-browser compatibility** and delivered a mobile-first design, achieving **100% usability across major devices**.
- Improved frontend performance through lazy loading, code optimization, image optimization, and efficient component rendering, resulting in faster page load times and improved user experience.

Project Name : ndhealth.ai

- Built an AI-powered healthcare chatbot using **React.js** for the frontend and **Node.js + Express** for backend services.
- Integrated **ChatGPT API** with a **Vector Database** for semantic search and context-aware responses, improving accuracy of answers by **40%**.
- Enabled real-time query handling for patients, delivering safe and reliable healthcare guidance to **500+ users** monthly.
- Deployed a scalable and mobile-friendly chatbot interface, increasing patient engagement by **25%** and reducing response time to under **2 seconds**.

Project Name : ndskills.in

- Developed and deployed an online learning management platform using **React.js, HTML5, CSS3, and Bootstrap**, ensuring **100% mobile compatibility** and cross-browser support.
- Engineered **interactive dashboards, course modules, and learner profiles**, enhancing platform usability and increasing user engagement by **20%**.
- Introduced a **form submission API** for user enrollment, automating data flow and reducing manual entry efforts by **50%**.
- Applied **lazy loading and efficient component rendering**, optimizing platform performance and reducing page load times by **30%**.
- Collaborated with backend teams and QA testers to deliver a secure, production-ready platform within tight deadlines.

Achievements

- Optimized API calls, implemented lazy loading, and compressed assets, reducing page load by 60%. Improved user engagement by 30%, enhancing responsiveness and boosting conversions across 1000+ customers.
- Enhanced SEO performance and accessibility of client websites, contributing to a 15% increase in organic traffic.

Certifications

- Full Stack Development Certification – Innomatics Research Labs.
- Certified in React.js by HackerRank, validating expertise in developing responsive, scalable, and performance-driven web applications.

Education
